

## Career Outlook

Training in various areas of Animal/Equine Science can prepare the student for employment in many fields and a variety of positions. In fact, there are over 500 distinct occupations in animal agriculture. Some of the opportunities include science, teaching, agricultural services, allied industries, manufacturing, and production.

Academic preparation for students entering the agriculture industry today must be well-rounded in both the biological and physical sciences. It is important that many animal science students today do not lack practical experience necessary for many positions. A combination of technical and practical training. Practical experience in animal science is attained through laboratories and summer internships.
